

**WOODY.** (*Offstage.*) We still talkin' 'bout Jimmy's mama mothafuckas?

**TONI.** (*To audience.*) Here it is. I did something that no one else before me had been able to do. I did it smart and I did it pretty and I didn't listen when they said I can't do a thing. I did a thing. And then I did this other thing, that I didn't know was in me. And then I remembered, when they said I couldn't do a thing, and I did that... And they said I couldn't do a thing, and I did that too... and then they said I couldn't do a thing. And *you* know what I did. I reached. Turns out between the weight of a thing, and the reach... There's breath...and in that breath is life.

(**TONI** *exits.*)
